

# WORLD BREWING ACADEMY

DOEMENS ACADEMY • SIEBEL INSTITUTE OF TECHNOLOGY

The World Brewing Academy (WBA) is the only international brand of brewing education offerings jointly developed and conducted by two internationally recognized and respected brewing schools, the Siebel Institute of Technology of Chicago, U.S.A., and Doemens Academy of Munich, Germany. The courses and programs of the WBA uniquely present both traditional "old world" European and current "new world" North American brewing theory and techniques, coupled with cutting-edge technology. The combined expertise of both schools is the strength and backbone of the World Brewing Academy brand of offerings.

Since its founding in 1872, The Siebel Institute of Technology has educated brewers from nearly every country in the world and from breweries large and small. The Siebel name remains unparalleled for education in the art and science of brewing.

**Doemens**  Doemens Academy, established in 1895, has built a worldwide reputation as an international training institute for the brewing, beverage and food sectors.
