

WANTED: Brewmaster Ready to Lead in the Heart of Australia

Tired of the same old production line? Want to put your stamp on something unique and meaningful in one of the most iconic locations in Australia?

We're on the hunt for a passionate, driven, and creative Head Brewer to take the reins at Alice Springs. If you're ready to escape the mundane, make amazing beer, and help shape the future of independent brewing in Central Australia, keep reading.

If you are a brewer who is tired of:

- Being stuck in a job where your ideas get ignored and creativity is off the table...
- Watching uninspired leadership steer good breweries into mediocrity...
- Hustling in high-rent cities where you are just another cog in the machine...
- Working in places where the community is just a "target market" and not part of the culture...

Then this might be the most important job ad you will ever read!

Here is why:

- **Autonomy and Influence:** We are not looking for a button pusher. You will have real creative control to shape our core range, develop beers and push boundaries.
- **Live and Work in Alice Springs:** A unique lifestyle in one of Australia's most fascinating regions. Affordable living, a thriving arts and food scene and a sense of community you don't get in the big cities.
- **Grow With Us:** We are expanding. You will be an integral part of our leadership team as we scale operations and pursue exciting new distribution and festival opportunities.
- **Own the Brewery Floor:** You will lead brewing operations, manage and mentor a small team and be hands-on with everything from grain to glass.
- **We Love Great Beer:** Our beer is award-winning, our reputation is growing fast and our customers love us. You will get to make beer you are proud of and people will travel to taste it.

The Brewery Mentors

The Brewery Mentors are an Australian consulting firm specialising in the installation of breweries and distilleries, the management of beverage production for clients and the recruitment of skilled professionals for the Oceanian beverage industry.

Australia offers a dynamic brewing landscape with hundreds of independent breweries, many of them located in regional areas where skilled brewers are in high demand. At the same time, many European brewing graduates are seeking international experience early in their careers.

TBM bridges this gap by connecting breweries with the right talent and supporting brewers in making the move to Australia. Beyond recruitment, TBM also provides guidance with relocation, visa processes, accommodation and integration into the local brewing community.

About Our Client

Alice Springs is an independent craft brewery located in the heart of Central Australia in the town of Alice Springs in the Northern Territory. The brewery has established itself as a popular meeting place for both locals and travellers exploring the Australian Outback. With a strong focus on quality craft beer and community atmosphere, the brewery serves a diverse mix of residents, tourists and adventure travellers visiting the Red Centre. Due to the unique location and the steady flow of international visitors travelling to nearby landmarks such as Uluru, the brewery offers a rare opportunity for a brewer to work in one of Australia's most iconic regions while producing beer for both a loyal local community and a global audience.

Alice Springs is one of the most fascinating and iconic towns in the country. Located almost exactly in the geographic centre of Australia, Alice Springs offers something that is increasingly rare in Europe: vast landscapes, a strong local community and a truly unique lifestyle.

The Role

As Head Brewer, you'll lead all aspects of beer production at Alice Springs, from brew planning to packaging and everything in between.

Your responsibilities will include:

- Recipe development and execution across core and seasonal ranges
- Managing raw material orders and inventory
- Leading, training and scheduling brewing team members
- Managing cellar, QA/QC and packaging operations
- Ensuring cleanliness, safety, and compliance across the brewery
- Monitoring and improving efficiency, yields, and product consistency

You will need:

- Commercial brewing experience (3+ years in a leadership or senior brewing role)
- Strong technical brewing knowledge (Degree, Diploma or Grad Cert favourable)
- A love of quality beer and pride in your craft
- Solid communication and leadership skills
- The ability to work independently, solve problems, and bring fresh ideas
- A "roll your sleeves up" attitude — we're a small team and no one's above the mop!

Remuneration Package

Salary - \$100,000.00 - \$110,000.00 plus Superannuation

Onsite single accommodation (\$15,600 value)

10% Bonus Structure

This is more than a job, it's a lifestyle and a leadership opportunity with massive upside. If this sounds like your kind of gig, apply now and tell us why you'd be a great fit and we will send you more information about the job and location.
