

# Brewing in Australia

**We are looking for a young brewmaster to lead one of Melbourne's most iconic breweries!**

## **The Brewery**

### **Wolf of the Willows**

Wolf of the Willows is a well-established independent craft brewery based in Melbourne, founded in 2014 by a passionate husband and wife team. Known for producing small batch, handcrafted beers, they combine classic styles with a modern twist, from easy drinking pale ales to barrel aged specialties and experimental releases.

What sets Wolf of the Willows apart is their strong focus on quality, consistency and innovation. They have built a loyal following both locally and nationally through a diverse core range alongside limited releases that push creative boundaries, particularly in mixed fermentation and barrel ageing. With a well-developed production facility and an experienced team, the brewery continues to grow its presence in both the on-premise and wholesale markets while staying true to its independent roots and commitment to great beer.

## The Role

### Brewmaster

The role at Wolf of the Willows is a true leadership position for someone ready to take full ownership of a well established brewery. As brewmaster you will oversee a 15hl brewhouse and lead a small team of two brewers, managing all aspects of production from planning and scheduling through to packaging and logistics. The role goes beyond brewing, with responsibility for brewery administration, stock control and compliance, while also mentoring and developing the team on the ground. A strong focus will be placed on maintaining and elevating quality standards across all beers, while working closely with the owners to drive innovation and support the continued growth of the brewery.

## About us

### The Brewery Mentors

We are The Brewery Mentors, a specialised consultancy and recruitment firm focused on connecting highly trained brewers with unique opportunities across Australia and New Zealand. We have been appointed by Wolf of the Willows to find the right brewmaster for this role and will guide you through the entire process from first introduction through to onboarding. If you are interested and believe you would be a strong fit, please send your CV and a short cover letter to [julian@thebrewerymentors.com](mailto:julian@thebrewerymentors.com) and we will come back to you with more information.
